

Carbon Reduction Plan Template

Supplier name: SecureCloud+

Publication date: 16/11/2021

Commitment to achieving Net Zero

SecureCloud+ is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

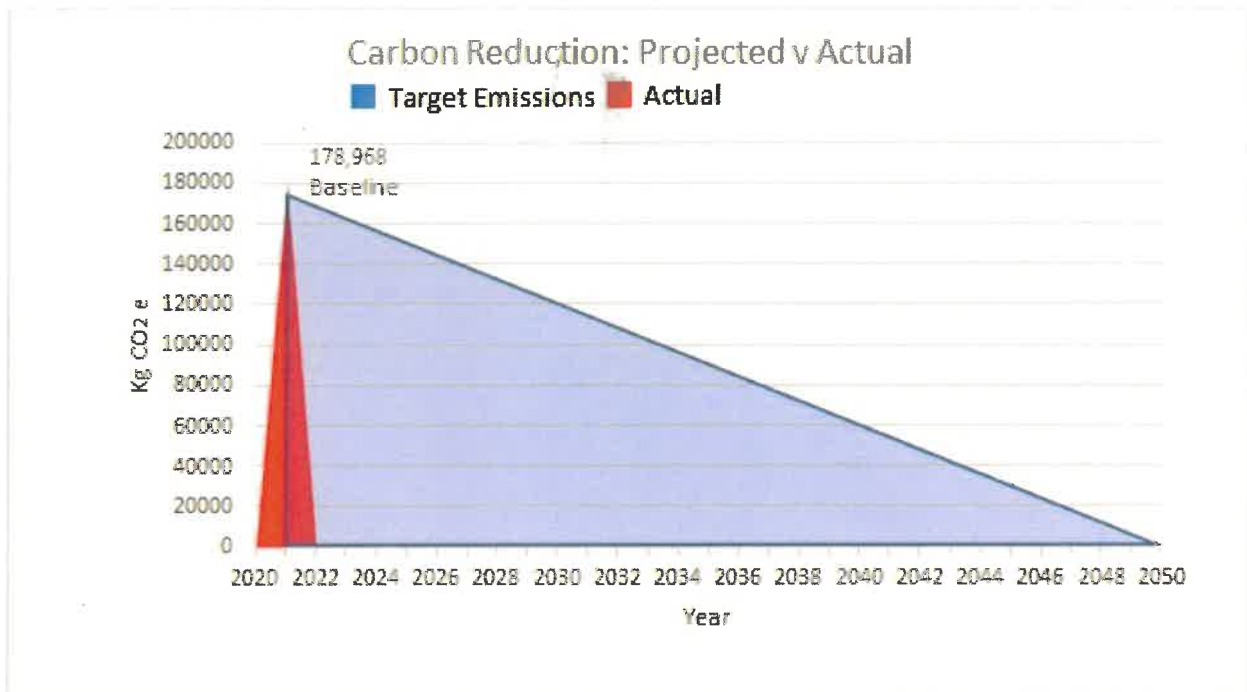

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: FY 2020 / 21	
Additional Details relating to the Baseline Emissions calculations.	
<i>This is the company's first baseline emission calculation which was completed during FY 2020/21 which includes Covid 19 pandemic government lockdowns. Some sampling methods have been used to adjust these figures to account for these lockdown periods. It includes the emissions for scope 1, scope 2 and a subset of scope 3 which includes categories 5,6,7 & 9 category 4 has no emissions as advised by the cabinet office.</i>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0
Scope 2	17,708
Scope 3 (Included Sources 5,6,7,9)	161,260
Total Emissions	178,968

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 161,072 tCO₂e by 2026. This is a reduction of 10%

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

SecureCloud+'s offices in Reading and Stoke on Trent has been fitted with PIR controlled lighting system to help conserve electricity in the offices, Push action 'non concussive' timer taps for controlled water usage have also been fitted in the restrooms. The Reading headquarters is also situated extremely close to Reading railway station to encourage visitors and staff to commute by train rather than car, we also promote the cycle to work scheme. The company is also pursuing certification to ISO 14001 Environmental Management System to manage its impacts and aspects.

In the future we hope to implement further measures such as:

- *Certification to ISO 14001 to help manage our aspects, impacts, risk and compliance.*
- *Encouraging customers and employees to use public transport*
- *Promoting the cycle to work scheme to employees*
- *Encouraging virtual meetings*
- *Moving towards a supply chain that is carbon neutral*

Declaration and Sign Off

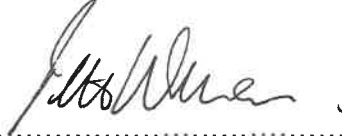

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard⁷ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting⁸.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard⁹.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
